Behind-The-Head Headset

The Behind-The-Head Headset is designed really flat and lightweight - about 50 g - and provides a high wearing comfort. The headset has the IP-safety class 54 and can be used in frozen storage areas.

Adjustable in 14 steps for multiple users and suitable for use with helmet.

The microphone boom can be adjusted very easily and has a water protected, noise cancelling microphone element, receiving superior audio quality.

C-Shape Headset - NEW

- 1 Water protected, noise cancelling microphone element with professional noise cancelling function, suitable for an operating temperature of $-40\text{ }^{\circ}\text{C}$ to $+80\text{ }^{\circ}\text{C}$ provides superior sound and excellent communication.
- 2 Adjustable and flexible microphone boom allows 280° rotation for right and left use, always keeping the user's most comfortable position.
- 3 Adjustable ear-piece, made out of soft and flexible material suits users from small to large size ears, due to its C-shaped form. The large ear-pad provides even more comfort to the ears.
- 4 The C-Shape Headset is designed for an exclusive and easy handling in industrial environments. The BATSTAR „Easy Repair“-System ensures an easy and fast replacement of broken parts.

D-Shape Headset

With only 20 g the D-Shape Headset is suitable for long time use due to its rubber ear loop which prevents slipping around the ear.

The gooseneck microphone boom can be bend and rotated to meet the users maximum comfort.

A high quality speaker element provides excellent transmitted sound for industrial or private communication.

Comfort Speaker Microphone

A 3.5 mm earphone jack offers the possibility to adapt an external earphone when needed.

The waterproof adapter connects speaker microphone and cable and offers a great flexible solution for repairing. All cables are industrial jacketed for a safe use and a maximum lifetime.

The rubber sealed housing and the ergonomic form of the speaker microphone offer a better grip and a safe use in wet environments. Condenser-style microphone element and a powerful speaker provides excellent transmitted audio clarity.
