Choose BATSTAR!

BATSTAR is a German specialist for high performance battery packs and audio solutions for professional mobile radios. With fifteen years of experience in developing and manufacturing professional battery packs, charging devices and audio equipment, we can offer a great range of products in the field of communication.

Clever ideas and quality management are our main focus, to challenge the valuation of suitability. Our ongoing mission is to develop and optimize our products to the best-fit solution that meets the customer's needs. We are always looking for new opportunities to implement your ideas.

We have the ambition to produce, offer and deliver high quality products, just in time with a fair value, to meet the client requirements. Before delivering our products, the goods have to get through a detailed quality control to get the seal of BATSTAR guarantee.

With a first-class service, which is our qualified and motivated sales team, we serve customers all over the world. The BATSTAR-Team knows more than just a part number of the product you are looking for. If you have any specific question or you want to place an order, please contact us for individual expert advice.

NEW

Overhead Lightweight-Headset for Offices, Depots & Pick-by-Voice

As a manufacturer of professional audio equipment we always listen carefully to our customer's feedback. That's why we developed in the past months a whole new headset for logistic and office environments.

We present a lightweight over-the-head headset with an easy to bend microphone boom and a total weight of just 50 grams. It has the same characteristics as our BATSTAR Comfort-Headset for the industry - it's build out of high quality materials, it has an excellent noise cancelling microphone and it's easy to assemble and disassemble following the BATSTAR „Easy-Repair“ system.

C-Shape Headset

1. Water protected, noise cancelling microphone element with professional noise cancelling function, suitable for an operating temperature of -40 °C to +80 °C provides superior sound and excellent communication.
2. Adjustable and flexible microphone boom allows 280° rotation for right and left use, always keeping the user's most comfortable position.
3. Adjustable Ear-Piece, made out of soft and flexible material suits users from small to large size ears, due to its C-shaped form. The large Ear-Pad provides even more comfort to the ears.
4. The C-Shape Headset is designed for an exclusive and easy handling in industrial environments. The BATSTAR „Easy Repair“-System ensures an easy and fast replacement of broken parts.

New Generation of Headsets

We would like to present our new Behind-The-Head Comfort-Headset. A new headset designed for industrial environments and the logistics.

We used carefully chosen electronic parts, as the speaker transmits superior sound and the noise cancelling microphone provides high level speech recognition. There are two types of this headset - a one-side speaker version as usual and additionally a second-speaker version!

Part-No.: 5 2310 00 X XXXX / 5 2320 00 X XXXX

The Headband can be adjusted in different steps to provide a secure fit for multiple head forms.

The microphone boom can be easily adjusted in front of the mouth for excellent voice transmission. It also is suitable for frozen storage areas up to temperatures of -40 °C.

Because of its robust and durable design, the headset is suitable for rough environments like logistics and industrial environments.

The one-side speaker version is perfect for warehouses with pick-by-voice systems and one-ear-free policies.

Ask our sales team for samples and try it yourself!
